## CoreX Value Discovery Sessions

Maximize your ServiceNow transformation with a clear roadmap and targeted opportunities for success.

### What is a Value Discovery Session?

A Value Discovery Session with CoreX is a complimentary workshop (a half- to full-day leadership session) designed to identify opportunities, define priorities, and create a clear roadmap for achieving business impact with ServiceNow.

Whether you're focused on Source-to-Pay, OT Management, Asset Management, Customer Service, or any other ServiceNow solution, our experts lead a collaborative, insight-driven process to uncover hidden value and deliver measurable business impact.

Through real-world expertise, data insights, and ServiceNow best practices, we engage stakeholders, align priorities, and deliver actionable recommendations to accelerate your transformation.

#### What to Expect

#### **Align on Business Objectives and Key Focus Areas**

- Define goals and success metrics – such as improving operational efficiency or enhancing the customer experience.
- Pinpoint key areas of opportunity to drive maximize impact.

#### **Explore current-state challenges, map priorities, and identify high-impact use cases.**

- Conduct a detailed assessment of your current processes and pain points to uncover areas for improvement.

## What to Expect (Continued)

### Explore current-state challenges, map priorities, and identify high-impact use cases.

- Prioritize initiatives using real-world insights and ServiceNow best practices.
- Identify high-impact use cases that align with your business goals and drive measurable outcomes.

### Deliver actionable recommendations with a phased roadmap for a successful ServiceNow implementation.

- Outline value targets that directly support your business objectives.
- Build a phased implementation roadmap with clear, actionable steps.
